

Council 2024-25 Financial Analysis Report

Prepared by Bhuvan Virmani

Introduction

The purpose of this dashboard is to monitor and analyse council financial performance by Comparing Budget vs Actual data and previous year values.

It highlights:

- Which councils have the highest variances
- Which financial categories contribute most to over- or under-performance
- How Councils performed compared to the previous year
- Where non-recurring items may be influencing the final outcome

Dashboard Development Process

Data Extraction

Audited 2024–25 financial income statement data:

- 1.City of Sydney**
- 2.City of Paramatta**
- 3.Hills Shire Council**
- 4.Hornsby Shire Council**
- 5.North Sydney Council**
- 6.Woollahra Municipal Council**

Dashboard Development Process

Data Cleaning

- 1.Created Data Dictionary for short readable names for income statement categories.
- 2.Grouped categories into– income, spending and totals.
- 3.Changed numbers to the correct financial format.

Category	Budget 2025	Actual 2025	Actual 2024	Council	Category Type

Dashboard Development Process

Data Modeling

Created following DAX measures:

1. **Variance (actual 2025 – Budget 2025 Values)**
2. **Year on Year change (Actual 2024 – Actual 2025 Values)**
3. **Additional measures to return the council name and values with the highest variance and the highest YoY change.**

- Highest Variance by %
- Highest Variance Council
- Highest Variance Value
- Highest YoY %
- Highest YoY % Council
- Highest YoY Change Value
- Selected Category & Type
- Variance %
- Variance 2025**
- YoY %
- YoY Change
